

Andre Wegner

Andre Wegner is founder and CEO of Authentise, a leader in data-driven process automation software for additive manufacturing. He is also the Chair of Digital Manufacturing at Singularity University in Silicon Valley.

Andre is a frequent speaker on 3D Printing, the digital thread in manufacturing at events such as WIRED, Rapid, Open Innovations, CES and more. He has been quoted in publications such as BBC News, MIT Tech Review, Chicago Tribune, and Bloomberg.

Prior to Authentise Andre invested in, and supported capital raises of, companies in Nigeria and India. Andre is a graduate of St. Andrews University (M.A. – UK), ESSEC (M.Sc. – France) and Singularity University (California).
