

# Michael Gillam

Michael Gillam, MD, FACEP, is CEO and Founder of HealthLab, a discovery automation company for big data in healthcare. He is dual board certified in emergency medicine and medical informatics. Dr. Gillam served as a partner level executive in Microsoft and is former founding director of the Microsoft Healthcare Innovation Lab. He helped build and sell companies to both WebMD and Microsoft. Dr. Gillam has over ten years experience directing innovation labs in Washington D.C. and Microsoft spanning projects including: big data, machine intelligence, natural language processing (NLP), gesture based interfaces, electronic and personal health records (EHRs & PHRs), augmented reality, and medical robotics.

Dr. Gillam has served as Chair of Informatics for both the Society for Academic Emergency Medicine and the American College of Emergency Physicians. He has advised health ministries, Fortune 500 companies, and NGOs regarding their healthcare data strategies nationally and internationally including China and the Middle East. He served as the Chief Clinical Judge for the Qualcomm Tricorder XPRIZE, Judge on the Nokia Sensing XPRIZE, and Judge for the IBM AI XPRIZE.
